يعتبر الخط المطاوع هو تجربة لإنشاء خط عربي رقمي ليكون إضافة لمكتبة الخطوط العربية الرقمية، إلي جانب أنه تم إعداده ليستخدم في عمليات التحريك والعرض القائمة علي الشاشة. أي أن الخط سيكون مصمم من أجل العرض الرقمي، أيضا من الأمور الهامة عند قيامنا بتصميم الخط هي الإهتمام بخلفية الخط التاريخية والتدقيق على القواعد البصرية والجمالية.

## STUDING PERSONA & SCENARION MAPPING

The Applications UX site visit teams then search for the consistencies in work processes across companies and customers. We conduct further studies using surveys and customer feedback sessions to gain a deeper understanding of customers and their work. We create user profiles and personas to characterize the key groupings of customers, and then we dig into the work details using task analysis and card-sorting techniques.
